

FOR HOMEOWNERS

FOUNDATION PLUS/SHEATHING

**A DUAL-PURPOSE PRODUCT SERVES
BOTH AS INSULATION AND EXTERIOR
SHEATHING MATERIAL.**

For new construction or home improvement projects,
you need an exterior insulation that's built to last.

FOUNDATIONPLUS/SHEATHING IS A COST-EFFECTIVE WAY TO INCREASE THE R-VALUE OF YOUR HOME, LOWER YOUR ENERGY COSTS AND INCREASE YOUR COMFORT.

It's made from high-density TrueFoam Type 2 Expanded Polystyrene (EPS), which is a breathable material – so it avoids the issues of trapped moisture, condensation and dry rot. Its incredible strength, durability and moisture resistance makes it an excellent choice for under concrete slabs or on exterior foundation walls.

EASY TO INSTALL WITHOUT ANY SPECIAL TOOLS OR TECHNIQUES.

FINISHING YOUR BASEMENT?

Apply FoundationPlus/Sheathing directly to the concrete with insulation adhesive, or simply nail it to the sill plate or joist header.

BUILDING A NEW HOME?

Attach FoundationPlus/Sheathing to studs with 1/2" head galvanized nails. It's easy to trim out the corners, windows and doors. Plus it's compatible with any exterior finish material.

TACKLING A HOME RENOVATION?

Install FoundationPlus/Sheathing directly over the existing building face and finish up with new siding or brick.

TrueFoam FoundationPlus/Sheathing meets or exceeds all national industry standards and it's certified for in-ground applications. Every product in the TrueFoam insulation system is designed to be durable, versatile, environmentally responsible and cost-effective.

LOWER ENERGY COSTS. LONGER COMFORT.

We believe in helping building owners save as much as possible. That's why we designed our products to reduce heating costs and protect the integrity and long-term comfort of both commercial and residential buildings.
